**LOGO INFORMATION:**

In order to best represent and honor your sponsorship, we are asking you to supply your logo as a specific file type: **vector.eps or vector.ai**. This ensures that your logo will be scalable for all our imprint opportunities without risking image quality loss. While we can accept raster-based logo files (jpeg, tif, png-300 dpi, no less than 3”w), we cannot ensure that raster file types will accurately reflect your logo on all imprint applications, especially those that require logos be scaled to a very large size. Do not supply a .pdf file of a raster-based logo. **Help us honor your sponsorship. Supply a vector file!**

Regarding color: **please supply your logos as full color (cmyk), 1-color PMS or 100%K, and white**. We will use your main color logo whenever possible, but will have need for 1-color AND white at a minimum. If you have any questions about file types and how to supply your logo, please contact Kathryn at [kathryn@grillgraphicdesign.com](mailto:kathryn@grillgraphicdesign.com).
